

GO GREEN WITH **QUAD-LOCK**[®]

COMMITMENT TO OUR ENVIRONMENT

For Quad-Lock, sustainability means embracing our responsibility to act as a good corporate citizen, continually working to reduce energy consumption and carbon output, ensuring that our employees and business partners are treated fairly in all dealings, and striving to be a good neighbor in every community in which we operate.

- **Corporate Citizenship**

Quad-Lock strives to provide a leadership role in the business community by accepting and working on our responsibility for the earth's environment and to society as a whole.

- **Education**

Quad-Lock strives to raise employee awareness of environmental issues in order to reduce our environmental and carbon footprint as a company and as individuals.

- **Business Planning**

The Quad-Lock approach is to give full consideration to environmental issues for all current business activities and especially future endeavours in order to reduce environmental impact.

- **Compliance with Regulations**

Quad-Lock aims at exceeding requirements of applicable environmental regulations in all aspects of its business activities.
